

Did you ever wonder what a major in mathematics can help you achieve in your future?

From **Here** to *Where?*

Conversations with successful MATH MAJORS
who have achieved very different goals in their careers.

Mengjie Ding '12 SB, Data Science Manager at Stripe, uses machine learning and statistical methods to optimize user experience and business performance for financial products.

Erik Feng, '10 SB, Senior Director of Portfolio Risk Management at Ouro, leads a team to find and implement data-driven strategies to reduce fraud risk and to grow Ouro's debit card business lines.

Luis Lafer-Sousa '12 SB, CTO and Co-Founder at Outlier, a B2C SaaS research platform specializing in sports analytics and market pricing, focused on sports betting.

CJ Quines '23 SB, Software Engineer at Stainless API (a 15-person startup), builds web products supporting a best-in-class SDK generator.
